

ARE YOU INCLUSION *ready?*

The National Disability Insurance Agency (NDIA) is looking to fund creative, innovative, accessible and inclusive projects for people with disability in your community.

CSIA is partnering with NDS to help you, your organisation and your community better understand inclusion and the related Information, Linkages and Capacity Building (ILC) grants. We will help your organisation get ready for ILC activity in Queensland.

NDS will run workshops across the state focused on inclusion in your community, the broader benefits of inclusion activities and how to apply for the ILC grants.

You are invited to be part of the inclusion conversation in your community.

To register your interest for the workshops please email nds QLD@nds.org.au

WHAT WILL THE ILC PROVIDER READINESS PROJECT DO?

During 2018, we'll be bringing you a variety of workshops, resources, tools and information to get you ready, and strengthen your capacity to promote social and economic inclusion for people with a disability in Queensland communities. So, get involved and start getting prepared for ILC.
